B.4b	Known Trends	<p>Since the 2008 financial crisis, structural shifts in regulation and retrenchment from banks, have resulted in the fast paced growth of alternative financing, in particular direct lending for small and medium sized enterprises ("SMEs"). Non-bank financing has near tripled in size to \$441billion from 2006 to 2014*.</p> <p>SME-specific bond markets have developed across Europe, particularly in the last six years. These funds and other non-bank lenders offer borrowers more flexible terms on debt than banks and are filling the funding vacuum created by the withdrawal of traditional lenders.</p> <p>In 2015, private debt fundraising reached a six-year high, attracting \$85.2billion in capital commitments globally**. The UK remains the largest market for private debt funds with 45% of the transactions in Europe, followed by 23% in France and 13% in Germany***.</p>

		<p>Despite the recent growth of the non-bank lending and alternative finance sectors, UK SMEs still remain underserved from a funding point of view. 47% of UK SMEs have used a personal credit card for their business and 19% do so regularly, 26% of UK SMEs have used overdrafts to grow their businesses. 540,000 businesses in the UK are unsure about being able to access the finance they may need to grow or even survive****.</p> <p>Sources:</p> <p>* Preqin and Brown Brothers Harriman: "Private Debt in 2015: Thinking Outside the Bank", June 2015.</p> <p>** Preqin: "2016 Global Private Debt Report", 2016</p> <p>*** Moody's Investor Services; "New debt market instruments begin to free up credit for SMEs and mid-caps", October 2015</p> <p>****Close Brothers; "Banking on Growth: Closing the SME funding gap", November 2016.</p>

The main strength of the portfolio is the diversity of counterparties, which means that credit risk is spread over a very wide range of SMEs.</p> <p>2) Short Term Working Finance</p> <p>Short Term Working Finance is the provision of unsecured lending to small businesses in the form of short term working capital loans. Usually these loans are provided to businesses as a supplement or replacement for an overdraft facility. An example being, providing working capital funding to over 7,000 UK SMEs and also providing block funding lines to other, carefully vetted, finance companies with in-depth knowledge of the market, and which can be purchased at a discount.</p> <p>3) Corporate Trade Finance</p> <p>This is a longstanding and well established market, where finance is provided between a company and its customers in respect of amounts due ("receivables") for goods, or a service, supplied. For example, the Company has provided funding for telecommunications call financing.</p> <p>4) Secured Funding</p> <p>Providing short term finance with strong security over fixed assets and a low loan-to-value. The Security Document and the Security Trust Deed are governed by and shall be construed in accordance with English law.</p> <p>The Advancr bonds of an aggregate nominal amount of £4,088,410 that were issued by the Company pursuant to an offer document dated 1 December 2016 (the "2016 Advancr Bonds") are also secured by the Security Document and will rank equally under the Security Document with the Advancr Bonds to be issued pursuant to this Base Prospectus.</p> <p>Pursuant to the Security Document, the Company has agreed with the Security Trustee to pay to the Security Trustee, as trustee for the Security Beneficiaries, on demand, all monies owing by the Company to the Bondholders, holders of 2016 Bonds (the "2016 Bondholders") or to the Security Trustee (the "Secured Obligations") as and when they are due for payment. The Company has charged to the Security Trustee as trustee for the Bondholders and the 2016 Bondholders, by way of fixed (i.e. a charge relating to specific assets of a company) and floating (i.e. a charge over assets that change in quantity and/or value from time to time) charges as security for the payment and discharge of the Secured Obligations, the assets of the Company. The Company will also assign (i.e. transfer) to the Security Trustee as trustee for the Bondholders and the 2016 Bondholders all its rights in those insurance policies in which the Company has an interest ("Insurances"), provided that on payment or discharge in full of the Secured Obligations the Security Trustee will, at the request and cost of the Company, transfer the Insurances back to the Company. It is not expected that any material assets of the Company will be charged by way of a fixed charge but that the assets of the Company will be charged by way of the floating charge as described above.</p> <p>Pursuant to the Security Trust Deed, the Bondholders will appoint the Security Trustee to act as their agent and trustee in connection with the Security Document, for a fee payable by the Company calculated at such rate as may be agreed between the Company and the Security Trustee. Upon the date that all amounts owing under the Advancr Bonds and</p>

the 2016 Bonds have been fully discharged, the trusts set out in the Security Trust Deed shall be wound up and all the rights, duties and obligations of the Security Trustee to the Bondholders and the 2016 Bondholders shall cease to have effect.

In an Event of Default (see "Events of Default" below), under the terms of the Security Trust Deed, the Security Trustee is able, a trustee for the Bondholders, to enforce the Security Document against the Company (without any further action being required to be taken by Bondholders) and so that the proceeds from that enforcement to which Bondholders are entitled can be distributed to Bondholders (see the information under the headings "Proceeds of Enforcement of the Security Document" and "Ranking of the Security Document" below for further information as to the priority of the Bondholders with regards to the receipt of those proceeds).

Proceeds of Enforcement of the Security Document

Subject to the payment of any claim ranking in priority as a matter of law, the proceeds of enforcement of the security constituted by the Security Document shall be paid to the Security Trustee and those proceeds shall be applied insofar as is possible under any applicable law in the following order of priority:

Priority	Proceeds
First	first, in satisfaction of all costs, charges, expenses (including legal expenses) and liabilities incurred by the Security Trustee or any Insolvency Representative appointed under the Security Document or their attorneys or agents and of the remuneration of the Security Trustee and such Insolvency Representative (and all interest on such sums as provided in the Advancr Bond Deed). These expenses may be considerable.
Second	second, in payment of all costs and expenses (including legal expenses) incurred by or on behalf of any Bondholder and 2016 Bondholder in connection with indemnifying and/or pre-funding and/or providing security to the satisfaction of the Security Trustee in relation to such enforcement.
Third	third, in payment in or towards the discharge of the remaining indebtedness which at the time such proceeds are applied is due and payable under the Advancr Bonds and 2016 Advancr Bonds on the basis that each of the Bondholders and 2016 Bondholders at the time such proceeds are applied will be paid the same proportion of such proceeds as:- (a) the principal and interest and all other amounts which, at the time such proceeds are applied, is due and payable to such Bondholder and 2016 Bondholder in relation to the Advancr Bonds and 2016 Advancr Bonds of which it is the holder; bears to (b) the aggregate total of all principal and interest and all other amounts which, at the time such proceeds are applied, is due and payable to each Bondholder and 2016 Bondholder; without priority amongst themselves to each of the Bondholders and 2016 Bondholders at the time such proceeds are applied.

Ranking of the Security Document

On a winding up of the Company, distributions would be made to its creditors, which would include the Bondholders, in accordance with a statutory order of priority. The expected ranking of the Advancr Bonds compared with other creditors will be as set out in the following table. **As mentioned above (under the heading "Security"), it is not expected that any material assets of the Company will be the subject of a fixed charge (i.e. the Company does not currently nor does it intend to own any freehold or leasehold properties and as the Company has a limited trading record the value of its goodwill is not likely to be significant) but that the assets of the Company will be charged by way of a floating charge and that, therefore, on a winding up of the Company the Bondholders and 2016 Bondholders would rank in priority, with regards to the proceeds from those assets, behind the expenses of the liquidation, the proceeds due to the holders of other fixed charges and the proceeds due to any preferential creditors, as highlighted in bold and by the arrows below:**

Ranking	Type of Obligation	Example of Obligation
---------	--------------------	-----------------------

First	Expenses of the liquidation	Currently none
Second	Proceeds of fixed charge assets	The assets of the Company secured by the fixed charge created under the Security Document
Third	Preferential creditors	Currently none
Fourth	Proceeds of floating charge assets	The assets of the Company secured by the floating charge created under the Security Document (which will include the Advancr Bonds)
Fifth	Unsecured creditors	Previously issued Advancr bonds that have not been secured over the assets of the Company
Sixth	Shareholders of the Company	Requirement to distribute to Advancr Group LLP as the shareholder of the Company

1 Year Advancr Bond	First anniversary of issue of Advancr Bond
2 Year Advancr Bond	Second anniversary of issue of Advancr Bond
3 Year Advancr Bond	Third anniversary of issue of Advancr Bond

(b) the Security Trustee may, in its capacity as trustee for the Bondholders and 2016 Bondholders in accordance with the terms of the Security Trust Deed and without the need for a Bondholder Resolution or any further action to be taken by Bondholders and 2016 Bondholders, enforce the Security Document and exercise all rights, remedies, powers or discretions of the Security Trustee under the Security Document (although the Bondholders and 2016 Bondholders may pass a Bondholder Resolution directing that the Security Trustee not to enforce the Security Document and in this case the Security Trustee would not enforce the Security Document).

Section D: Risks

Element	Disclosure requirement	Disclosure
D.2	Key information on the key risks specific to the issuer	<p>The key risk factors relating to the Company are:</p> <ul style="list-style-type: none"> Investing in Advancr Bonds involves the risk of the Company becoming insolvent. Should this happen Bondholders may lose some or all of their initial investment and lose some or all of any outstanding or future expected Interest payments. The Company has a limited trading record and has no assets (real property or otherwise) other than uninvested cash and a limited number of loans and, therefore, Bondholders have limited recourse to the Company and are reliant upon the recoverability of loans/lease finance payments. As at the date of this Base Prospectus, each of the activities that are undertaken by the Company is important to the Company but the Company cannot give any indication as to what proportion of the Company's activities will be constituted by any particular activity at any given time, including those activities where a security may be taken over the assets of an underlying company. The activities of the Company may change as the Directors seek new opportunities which would maximise benefits to Bondholders and may be replaced and/or supplemented by new activities. The Company does not take a security over the assets of all of the companies in which it lends to or funds. Whilst the Company may take a security over the assets of the companies in which it lends to or funds, as in its "Secured Funding" activities, where a debenture granting a charge over the property will be taken over the underlying assets which is enforceable in an event of default, a security cannot be taken in respect of many of its lease finance and lending operations. The assets of the Company over which over which a security has been taken, as opposed to those assets which involve other risk mitigation characteristics, will constitute a variable, and possibly small, proportion of the Company's assets. If the Company has no security in respect of the loan or finance any secured creditors of the borrower will have priority over the borrower's assets and the Company will rank equally with all the borrower's other unsecured creditors. This will mean that if the borrower's assets are insufficient to repay the secured creditors, the Company will receive nothing. The decisions as to which lease finance and lending operations the Company will undertake will be decided on by the Directors, in their sole discretion, and not the Bondholders. Whilst the Directors will make those decisions which they believe to be in the best interests of the Company and, therefore, the Bondholders, the Bondholders will not be consulted and will have no control over the day to day running of the Company. Any change in the composition of the Company's management team could impact on the ability of the Company to continue to execute its business strategy successfully and, if this affected the Company's revenue, this could impact on the Company's ability to make payments to Bondholders. If the SMEs that lease assets or borrow money from the Company fail to pay for the assets or the loans, the Company's ability to pay Interest and capital to Bondholders could be materially affected. Although the Company plans and makes provision for bad debts, if the level exceeded the predictions, this would impact on the Company's profitability and its ability to pay Interest and/or capital to Bondholders. SMEs are on average more risky counterparties than larger companies as they may be less prepared for the economic factors (such as interest rate changes, inflation, political and regulatory changes, etc.) and company-specific risks which they face. The Company was incorporated on 14 August 2015 and does not have a proven track record beyond this period. Audited financial information for the Company has been prepared for the period from its incorporation until 30 September 2016 and because of the size of the Company, has been prepared in accordance with the applicable financial reporting standards on a simplified basis without the level of detail that is required for larger companies. The Company does not have a longer proven track record and there is no further, or more detailed, historical financial information relating to the Company on which a decision to invest in Advancr Bonds may be made as would be the case if the Company was a larger, more established, company.

D.3	Key information on the key risks specific to the securities	<p>The key risk factors relating to the Advancr Bonds are:</p> <ul style="list-style-type: none"> • The Advancr Bonds are not protected by the Financial Services Compensation Scheme. Therefore, if the Company were to become insolvent or go out of business, Bondholders may lose all or part of their investment in the Advancr Bonds and no government or other body would be required to compensate them for such loss. • Whilst the Advancr Bonds are transferable and whilst Bondholders may request that the Company makes their Advancr Bonds available for sale on the Website for the original full face value, partial sales of Advancr Bonds are not possible or permitted and there is no guarantee that the Advancr Bonds will be purchased by other investors nor is there is any guarantee regarding the time it will take to complete the transfers or whether purchasers will be found. • No application has been, or will be, made to any recognised investment exchange for the listing of the Advancr Bonds and so there will be no ready market in which the Advancr Bonds may be sold which may, therefore, make them difficult to sell. • The Company has the right to repay the Advancr Bonds early to allow the Company to wind up its business if that was preferable to carrying on and if this were to happen the length of an investment in the Advancr Bonds could be materially shortened. • Advancr Bonds pay a fixed rate of Interest and there is a risk that a fixed rate will become less attractive if interest rates available elsewhere go up. Similarly, high inflation could adversely impact the real (inflation-adjusted) return of to a Bondholder. Each Series will have one Interest rate which will depend on (i) the term of the Advancr Bond, (ii) whether an applicant for Advancr Bonds applies directly to the Company or through a financial adviser (the Company encourages Investors to seek advice from a financial advisor and is offering a higher Interest Rate to Investors who are Advised as opposed to Investors who are Non-Advised and who invest directly on the Website) and (iii) whether Interest is paid monthly or on the maturity of the Advancr Bond. In submitting an Application for a particular Series an Investor will be agreeing to subscribe for Advancr Bonds at the Interest rate applicable to that Series. • In respect of sales of Advancr Bonds on the Website, a transfer fee payable to TPIM of 1% of the original full face value of the Advancr Bond which is being transferred will be applied on the date of the transfer, which would reduce the proceeds that a Bondholder would receive on the sale of Advancr Bonds. • It is not expected that under the Security Document any material assets of the Company will be the subject of a fixed charge (i.e. the Company does not currently nor does it intend to own any freehold or leasehold properties and as the Company has a limited trading record the value of its goodwill is not likely to be significant) but that the assets of the Company will be charged by way of a floating charge and that, therefore, on a winding up of the Company the Bondholders would rank in priority, with regards to the proceeds from those assets, behind the expenses of the liquidation, the proceeds due to the holders of other fixed charges and the proceeds due to any preferential creditors. • In accordance with the terms of the Advancr Bond Deed, Bondholder Resolutions are passed by a majority of the aggregate nominal amount of Advancr Bonds and 2016 Advancr Bonds. There will be no separate meetings of Bondholders holding a particular Series. This may mean that a Bondholder Resolution is passed against the wishes of a Bondholder.
